## **NOTICE**

The Sanpete County Sanitary Landfill Cooperative is requesting a permit for closure and post-closure care of the closed Class II disposal cell at the Chester landfill located approximately six miles north of Ephraim. The Chester Class II Landfill accepted municipal waste for disposal from 1989 to 2003. The landfill ceased receiving municipal solid waste in 2003, but is permitted to continue receiving construction/demolition waste, yard waste, waste tires, and dead animals.

The Division of Solid and Hazardous Waste reviewed the closure permit application and determined it to be complete. A draft permit and the application were released for a 30-day public comment period beginning July 6, 2005. No changes to the draft permit were required as a result of the public comment period. The closure permit was granted on August 11, 2005. The approved permit can be viewed on the web at [www.hazardouswaste.utah.gov/swpermittedfacilities.htm](http://www.hazardouswaste.utah.gov/swpermittedfacilities.htm) or during normal business hours at:
